Call for Papers/Posters

Authors are invited to submit papers for oral or poster presentations at the Congress. Please adhere to the submission deadlines outlined below:

Submission of Abstract : 1 May 2027
Notification of Acceptance : 1 June 2027

Strict adherence to the submission deadline is required. Late submission may be rejected. Exceptional submissions will be evaluated by selected reviewers for consideration for publication in the *Journal of Oil Palm Research* or the *Oil Palm Industry Economic Journal*. Authors of accepted papers will be required to assign the copyright to MPOB.

Authors are kindly requested to contact the designated contact person for papers and posters relevant to their respective conference:

FIRST ANNOUNCEMENT

PIPOC 2027

MPOB INTERNATIONAL PALM OIL CONGRESS AND EXHIBITION

THRIVING BEYOND GLOBAL UNCERTAINTY

16 - 18 November 2027
Kuala Lumpur Convention Centre

Organised by
Malaysian Palm Oil Board
Ministry of Plantation and Commodities, Malaysia

Follow us: www.mpob.gov.my

MPOB International Palm Oil Congress and Exhibition (PIPOC), an ideal platform to share and deliberate on the latest advances in the oil palm industry.

PIPOC 2027 Highlights

Impressive line-up
of world-renowned
speakers/experts who
will be sharing their
latest information and
research advances in
the industry

Four concurrent
conferences with over
2,000 participants,
100 speakers and 180
poster presenters

The largest oil palm
exhibition with a total
floor area of more than
3,600 m² with over 400
booths to showcase
latest technologies/
products/services

Technical tours to oil
palm plantation, palm
oil mill, refinery and
R&D facilities

Networking
opportunities

A golf tournament and
the 1st International
Sawit Run in conjunction
with the event

PIPOC 2027 Features Four Concurrent Conferences

Agriculture, Biotechnology and Sustainability (ABS)

The Agriculture, Biotechnology and Sustainability (ABS) Conference showcases the latest advances in oil palm breeding, biotechnology, soil and crop management, and pest and disease control. It also highlights research and practical applications that improve smallholder productivity and sustainability, while strengthening yield performance, resilience and the long-term competitiveness of the global palm oil industry amidst emerging challenges. The conference underscores the transformative power of science and innovation in advancing the oil palm industry.

Milling, Processing & Biorefinery (MPB)

The Milling, Processing and Biorefinery (MPB) Conference highlights technologies and advanced improvements in the palm oil milling and refining industry, related safety and quality aspects of the processing sectors, environmental and sustainability issues along the value chain, as well as advancement in renewable energy and biorefinery. Besides, the conference also addresses the updates on palm biomass and by-products technology and utilisation.

Downstream and Value Addition (DVA)

The Downstream and Value Addition (DVA) Conference focuses on advances in palm-based oleochemicals and their applications in high-value consumer and industrial products. The conference will feature emerging technologies, product innovation, sustainable processing, market developments, and strategic opportunities in surfactants and biosurfactants, functional esters, bio-based polyols and polymers, specialty lubricants and dielectric fluids, advanced coatings, adhesives, composites, phase-change materials, and innovative biomaterials, food and feed, strengthening downstream value creation within the palm oil industry.

Global Economics and Marketing (GEM)

The Global Economics and Marketing (GEM) Conference provides a key platform for economists, policymakers, industry leaders and market practitioners to exchange strategic perspectives on the evolving global oils and fats landscape, with a particular emphasis on the Malaysian palm oil industry. Against the backdrop of shifting trade dynamics, geopolitical uncertainty, evolving sustainability and regulatory requirements, climate-related challenges and the global energy transition, the conference offers expert insights into market outlook, economic trends and policy developments shaping the industry's future. Through evidence-based discussions and knowledge exchange, GEM promotes informed decision-making, strategic collaboration and innovative solutions to strengthen the resilience, competitiveness and long-term sustainability of the global oils and fats sector.
