Ministry of Plantation and Commodities, Malaysia

✉ pipoc@mpob.gov.my 🌐 pipoc.mpo.gov.my

MPOB International Palm Oil Congress and Exhibition (PIPOC), an ideal platform to share and deliberate on the latest advances in the oil palm industry.

PIPOC 2025 Highlights

Impressive line-up of world-renowned speakers/experts who will be sharing their latest information and research advances in the industry

Four concurrent conferences with more than 1000 participants, 100 speakers and 200 poster presenters

The largest oil palm exhibition with a total floor area of more than 3600 m² with over 400 booths to showcase latest technologies/products/services

Technical tours to oil palm plantation, palm oil mill, refinery and R&D facilities

Networking opportunities

A golf tournament

PIPOC 2025 features four concurrent conferences

Agriculture, Biotechnology and Sustainability (ABS)

Technological advancements have led to significant yield gains that further underscored oil palm's position as the premier sustainable oil crop. The Agriculture, Biotechnology and Sustainability (ABS) Conference provides an exclusive platform for showcasing breakthroughs and innovations that accelerate productivity and resilience of the global palm oil industry while contributing positively to planetary health.

Downstream and Value Addition (DVA)

Addressing significant advancements in palm oil products for both consumer and industrial applications through value addition is the main focus of the DVA conference. Topics which include the latest innovations, trends across multiple sectors, the development of high-value products, and strategic opportunities within the palm oil industry for food, non-food, and feed applications will be highlighted in this conference.

Milling, Processing and Biorefinery (MPB)

Among topics to be presented and discussed in the Milling, Processing and Biorefinery (MPB) module are technologies for improved palm oil milling and refining, and the related safety and quality aspects, as well as environmental and sustainability issues along the value chain. Also, will be highlighted are biomass and by-products potential and utilisation, and advancement in renewable energy and biorefinery.

Global Economics and Marketing (GEM)

The Global Economics and Marketing (GEM) Conference will provide participants with updates on the evolving dynamics within the global oils and fats sector, with a particular focus on the Malaysian palm oil industry. Esteemed speakers and industry experts will be invited to share their insights and forecasts regarding these developments. This conference aims to offer valuable perspectives and facilitate a deeper understanding of the current trends and future challenges in this vital industry.
